NARMA, Norwegian Network for Administration and Research Management

An introduction to metrics and their use – Turning data into intelligence

April 21st, 2016, 9:30 AM-16:30 PM

Auditorium NO20-025, Pilestredet 32, Oslo, Norway

Program

- 9:30-10:00 Registration and coffee
- 10:00-11:00 Working title: Daily use of bibliometrics, e.g. H2020, research group evaluation etc.
(Wouter Gerritsma, Vrije Universiteit Amsterdam)
- 11:00-11:45 Using data to drive policy and research assessment - Get more strategic about how support research talent, identify potential areas for growth.
(Dr. Lisa Colledge, Director of Research Metrics, Elsevier)
- 11:45-12:30 Lunch
- 12:30-13:30 How to make the best use of output metrics: Factors that affect output metrics followed by a demo of some data in SciVal to show practical application in a real tool. Data from our national CRIS-system and publishing data from Elsevier as a basis for advanced analysis using SciVal.
(Guillaume Warnan, Elsevier & Herman Strøm, University of Oslo)
- 13:30-14:00 Alternative metrics/Article level Metrics: downloads, patent citations, Mendeley etc.
(Guillaume Warnan, Elsevier)
- 14:00-14:30 Coffee break
- 14:30-15:15 The use of indicators to evaluate research institutions: how to make the link between an institution's strategy and the indicators?
(Marianne Gauffriau, University of Copenhagen)
- 15:15-16:15 Interactive workshop: Groups session using practical cases/questions
- 16:15-16:30 Closing
